

Acknowledgement

This Ministry is regularly compiling and disseminating information on rural health care services through a Bulletin on Rural Health Statistics in India based on the data received from the State governments in the form of Quarterly Progress Report on Rural Health Services. The relevance and importance of reliable and up-to-date statistics on rural health care services has increased manifold for proper formulation and effective implementation of various schemes and programmes for strengthening of the rural health care infrastructure, as envisaged in the National Rural Health Mission (NRHM). The last issue of this bulletin provided data upto March 2006 and the present edition of this Bulletin provides data as on March 2007.

At the outset, I put on record the continuous support and cooperation received from various States / Union Territories in providing the updated information on Rural Health Infrastructure through the Quarterly Progress Reports. I acknowledge the efforts put in by all the concerned state officials.

The overall supervision and guidance of Shri Amarjeet Sinha, Joint Secretary along with the efforts of Shri Rajesh Bhatia, Joint Director and Shri Mitter Saini, Statistical Investigator, in preparation of the Bulletin including the presentation and preparation of analytical write-up and final manuscript, need special mention.

November 2007

S.K. Das
Additional Director General (Statistics)
Ministry of Health and Family Welfare
